

## MathScore Post test administered last January 25 – 29, 2016 at the Computer Laboratory

MathScore is an online program of Mathematics in which the pupils could work at home at their own phase. The activities are suited to cater the needs of the pupils, the level of difficulties are ranged according to their abilities. The pupils have to accomplish their level tasks to earn points and move to the next level. This supplementary on-line program contributes in the development love for Mathematics and coping with the stress and fear in solving Math problems.
