A Thousand Trees for the  
Silang Santa Rosa River  
June 24 - 29, 2024

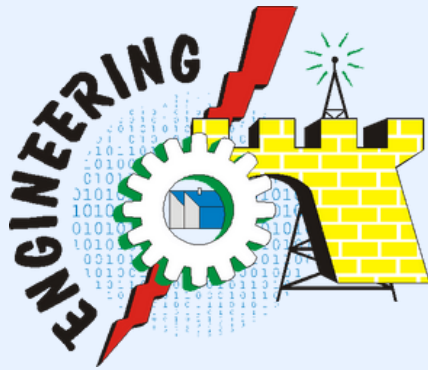

PERPETUALISTA

THE COMMUNITY OUTREACH DEPARTMENT ANNUAL REPORT

# ARBOR ALLIES

## A THOUSAND TREES FOR THE SILANG SANTA ROSA RIVER

Participants were divided into groups and assigned specific areas within the designated planting site. Each group with saplings and necessary tools. The species of trees chosen were native and suited to the local environment, ensuring a higher survival rate and greater ecological benefit.

The event commenced with an opening ceremony where key officials from the City Government of Santa Rosa and Nuvali addressed the participants. They emphasized the importance of collective efforts in environmental conservation and the specific goals of the day's activities.

"Save Silang-Santa Rosa River (SR2) Foundation" tree planting activity on June 29, 2024, was a resounding success, marked by enthusiastic participation and significant contributions to environmental rehabilitation.

The University of Perpetual System Laguna, along with other participants, played a crucial role in this collaborative effort, highlighting the power of community involvement in addressing environmental challenges.

This event not only celebrated Philippine Arbor Day but also laid the groundwork for continued efforts to preserve and restore the natural beauty and ecological health of the Silang-Santa Rosa Sub-watershed.
