UPHSL Attends the 42nd National Assembly and 44th National Congress of The Fraternal Order of Eagles

Tagaytay City, Philippines

December 01, 2024

The 42nd National Assembly and 44th National Congress of The Fraternal Order of Eagles – Philippine Eagles (TFOE-PE) were held from November 30 to December 1, 2024, at One Tagaytay Place Hotel in Tagaytay City.
The significant gathering brought together distinguished leaders and members of the organization to participate in discussions, assemblies, and activities promoting fellowship, leadership, and service. Among the key speakers were Jojo Valerio, National President of TFOE-PE, and Florentino Dumlao Jr., Eagle Chairman, who shared their insights and perspectives on the organization's leadership and continuing mission.

Among the notable attendees was Dr. Josefa G. Carrillo, President of AIRO Region IV-A and Director of the International and External Affairs Office (IEAO) of the University of Perpetual Help System Laguna (UPHSL). Also in attendance was Luis “Chavit” Singson, a prominent business leader from the Ilocos Region.

Dr. Carrillo's participation highlighted her engagement in professional networks and leadership communities beyond the university, reflecting the importance of collaboration, fellowship, and connections among leaders from various sectors.
Benefits to the University of Perpetual Help System Laguna (UPHSL).

Participation in significant national gatherings such as this provides opportunities for UPHSL to strengthen its institutional visibility, expand professional networks, and explore potential partnerships with organizations and leaders committed to community development and public service. Through the International and External Affairs Office, these connections may open avenues for collaborative community outreach programs, leadership development activities, student volunteerism, civic engagement, and service-learning initiatives.

Furthermore, engagement with professional and civic organizations supports UPHSL's commitment to holistic education by encouraging students to develop leadership skills, social responsibility, teamwork, and a stronger sense of community involvement. These opportunities can complement the university's internationalization and external relations initiatives by fostering meaningful connections with stakeholders outside the academic environment.

Overall, the event provided a valuable platform for professional networking and relationship-building, supporting UPHSL's continuing efforts to promote institutional collaboration, community engagement, and the development of socially responsible graduates.
